

8 TIPS

for holding a Reviving Our
Neighbourhood Street Party

Come out & play

1. Personal invitation

If you can, take the time to hand deliver your party invitations. People are much more likely to attend if they have met the organiser face to face.

2. A warm neighbourly welcome

Meet and greet people as they arrive to break the ice and introduce them to other neighbours.

3. Decorating

Decorate your street with posters, bunting, balloons and even tree lanterns!

4. Weather Proof your party

Seek a shaded area for seating on sunny days and have a wet weather shelter plan with tarps in case the heavens decide to open.

5. Sharing food

The easiest way to cater for all of your party guests, including those with any allergies, is to adopt a BYO rule for residents.

6. Physical activity

Organise a game of street volleyball, cricket or even hide and seek with odd and even street numbers as the teams.

7. Music

Seek out any potential local musicians in the area and encourage residents to bring musical instruments. Set up speakers and promote people to bring CDs and party playlists.

8. Kids' activities

Encourage the kids to play their own games free from adult instruction on the street and in front yards. Provide some loose parts and open ended natural resources and be amazed at the cubby houses and activities they can create with their imagination!
