

for Wildplay on the Sunshine Coast

1. Mapleton National Park

Deep forests of scribbly gums, tallowwoods, piccabeens and blackbutts - you can almost hear the trees talking to one another, and to you!

2. Noosa National Park, Sunshine Beach

Ocean waves, sandy dunes, rocky outcrops and shady caves - the perfect blend for oceanside wildplay.

3. Kondalilla Falls

Wind your way down, down, down into the heart of the mountain, where you will find the cool waters of these sublime falls.

4. Buderim Falls

In the middle of the suburban hum - a spectacular waterfall. Make your way underneath the rocky outcrop for the ultimate wildshower!

5. Maroochy North Shore

Weave your way along the shoreline from river to sea. Watch out for crabs amongst the cotton trees!

6. Boreen Point

A beautiful spot for family swimming, you can almost walk on the low tidal waters here. Can you find the treasure tree, reaching it's branches out across the waters?

7. Mt Cooroora

Boots at the ready, this is a climb that has just the right amount of challenge for the whole family. You can see the WHOLE WORLD up there!

8. Mt Colum

Not only will you climb a volcano, but you do so amongst a diversity of plant life unparalleled in Australia - there are over 700 different species on the mountain. How many can you count?

9. Mt Emu to Peregrine Beach to Stumers Creek

The ultimate blend of mountain, bushland, ocean and creek - you can experience all of the Sunshine Coast's best assets in one wild day!

10. Yurol National Park

Follow the creek, collect and sculpt red clay from the track, stand inside the burnt out trunks of gum tree ghosts and lay down upon thick spongy moss to rest. Don't forget to look out for the fairy mailbox. They may have left you a little note!
