

10 THINGS TO DO

at IndigiScapes

17 Runnymede Rd, Capalaba

- 1 Ribbit!**
Stop in at the IndigiScapes atrium and find Herbert and Lily, our two green tree frogs. Say hello to them in frog.
- 2 Hello Tallow**
Visit our 400 year old Tallowwood Tree and lay back on the seat and admire its long branches and hollowed limbs. You might be lucky and spot some animals that call it home.
- 3 Turtle Takeover**
Head over to the viewing platform, near the Tallowwood Tree, and count how many turtles come toward you in the water.
- 4 Minty Fingers**
Tour our Wild Herb Garden and find some native mint. Scrunch it up with your fingertips and smell it.
- 5 Colours and Flutters**
Search for butterflies in the popular Butterfly Garden. If there are no butterflies, count all the colourful flowers instead.
- 6 Scribbly Tree and Me**
Take a stroll down the Tallowwood View Trail and find a scribbly gum tree. Touch the scars made by the larvae of the Scribbly Gum Moth.
- 7 It's All About Balance**
Find the nature playground at the end of the gardens and try to balance along the wooden play structure. If you fall off, try again!
- 8 Go Batty**
Read and jump along the bat stepping stones and then zoom through the air like a bat on the flying fox.
- 9 A-Maze-ing!**
Ask your grown-up to close their eyes and safely navigate them through the maze.
- 10 Find some Feathered Friends**
See if you can spot three different bird species while you enjoy the Fairy Wren Walk.
