

Lockdown Likes

Lockdown Likes is a project to identify what children, young people, parents and caregivers in the Moreton Bay Region appreciated about life during lockdown restrictions. Amidst the many challenges and losses of social or physical distancing, there were also gains.

Through Lockdown Likes, we will hear the voices of children and young people. Through art, we will learn more about their experiences, opinions and ideas. This will spark new conversations with adults on what they valued about living differently for a while.

Learnings from Lockdown Likes will be incorporated into the Moreton Bay Disaster Management planning arrangements and inform the planning of programs and services of Council more broadly. An online exhibition will celebrate the artworks contributed.

We hope that you will join in! Please tell us how you'd like your children or young people to participate. You could:

- ✓ invite a project representative to run a face-to-face group consultation and art-making session at your location
- ✓ independently run an art-making and storytelling lesson/workshop and with your children - the project team will send you a Project Participation Guide to support your lesson.
- ✓ share any information you may have already gathered from students on their experiences and ideas
- ✓ facilitate students to complete online surveys
- ✓ join and share the Facebook page to encourage more parents and carers to participate
- ✓ share the information in your school/group newsletter to - we can send you the content.
