

We do outdoor learning

for a full and healthy childhood

We believe that Nature Play is fundamental to a full and healthy childhood.

We provide nature play for children to engage in outdoor play and learning and foster a love of nature.

We provide regular, active, outdoor learning to extend children's connection with nature, and provide students with enhanced learning of subject areas. Outdoor teaching and learning is embedded into our curriculum and practice. We ensure our students have daily access to quality natural areas for child led play and exploration to support their overall wellbeing and development.
