

DIGITAL DOORKNOCK

Nature Play^{QLD}

An App helping parents to connect children
for local play

Childhood has changed, children are increasingly sedentary with different activities competing for time. Get back to simple fun and get your kids outside to play with friends in the neighbourhood.

Set up your family profile securely, connect to other families where you live, see who is free to play and send messages to arrange play and call your kids home.

Make new friends in your neighbourhood and invite those with kids near you to join in.

Get started:

1. Download the free app and set up your profile.
2. Search and connect with others in your neighbourhood
3. Use this postcard to invite others from your neighbourhood!
